Yonghyuk Kim, a lawyer with a master's degree in logistics and a logistics manager license, has performed various legal tasks based on his expertise in Supply Chain Management (SCM), mobility, and distribution industries. In particular, he has provided a wide range of legal advice on various contracts and disputes for SCM and mobility customers. He has performed various tasks such as reviewing regulatory conformity for new businesses in the ever-changing mobility field and advising on regulatory sandbox. He is also active in the public interest field. He has been conducting various studies for the promotion of human rights of the disabled and immigrants in cooperation with the National Human Rights Commission and the Central Disability Advocacy Agency. He has published a number of papers, including employment, education, etc. He has been fighting for the disabled and children who suffer from discrimination and has provided legal advice for various non-profit organizations.
